
Sustainable Green Ballpoint Pen Made from Recycled PLA

holding zone texture

【Recycled Aluminum】 This pressed retractable ball point pen is made from recycled plastic. By recycling use of waste plastic(post-consumer), we can save CO2 emission at 4.8 tons per ton of plastic. You can take notes, keep a diary and write essays while protecting the planet.

【Cozy Touch】 Matt silver lacquered body is felt very smooth. Matte colored trim adds embellishment to the silver body.

Material	Tip	Writing Length	Package	Qty/Inner Box	Inner Box /Carton	Carton Size
